quiet, precise, fast, safe

ULTRA SONIC CLEANER
Soniclean's ultrasonic cleaner is a very popular choice for a wide reaching range of cleaning applications.

BAGS

SERVICE
Our highly trained service technicians are the amongst the best in the field. They are knowledgeable, skilled, professional and courteous. Calibrated testing equipment is used to validate, diagnose, service and repair sterilizers.

HELIX TESTER
The Helix tester copies to the European Standard EN 867-5. This is a test body for "Class B" autoclaves, which simulates the complicated requirements for sterilizing hollow instruments.

RO SYSTEM
The process of REVERSE OSMOSIS is the most advanced, economical and effective. REVERSE OSMOSIS has the ability to remove contaminants such as dissolved solids, bacteria, viruses, parasites, heavy metals, inorganic chemicals, pesticides and algae

CONSUMABLES
Biological indicators, incubators, chemical indicator strips, sterilization pouches, traceability products.

quiet, precise, fast, safe
